“The Washington Group Special Care Planning Team’s mission is to help make a positive difference in the lives of individuals with special needs, their caregivers, and other family members. Our knowledgeable and dedicated Special Care Planners, many of whom focus on this field because of close ties to Special Needs individuals in their own lives, assist families with developing valuable financial strategies, and creating strategic financial solutions that integrate with Government programs and other community supports. Through our network of organizations, professionals, and specialists, we can provide appropriate referrals to further assist families with their unique situations. We also help coordinate family education and communication.”
